KEY WORD INDEX FOR VOLUME 19, 1987

Acclimation . . . 616
Acetycholine . . . 497
Acetylcholine receptors . . . S121
Activation parameters . . . 570
Activity re-call . . . 564
Adenosine triphosphate . . . 410
Adrenergic receptors . . . 7
β-Adrenergic receptors . . . 443
Aerobic conditioning . . . 423
Aerobic performance . . . S197
Aerobic power . . . 62, 202, 253
Age . . . 159, 174, 616
Age discrimination . . . 179
Age discrimination in employment act . . . 179
Aging . . . 168, 179, 546, 616
Amenorrhea . . . 41
Anaerobic capacity . . . 56, 62
Anaerobic exercise . . . 368
Anaerobic power . . . 56
Anaplerosis . . . S150
Anemia . . . S197
Angular acceleration . . . 285
Angular velocity . . . 285
Ankle joint model . . . 143
Anorexia nervosa . . . 213
Anthropometry . . . 45, 195
Arousal reduction . . . S114
Arterial elasticity . . . 404
Atenolol . . . 1, 382
Atherosclerosis . . . 404
Athletes . . . 451
Athletic amenorrhea . . . 41
Athletic heart . . . 423
Athletic tape . . . 143

Baroreflex . . . 375, 436
Baseline blood pressure . . . 17
Bicycling . . . 83
Biomechanics . . . 148, 294, 332, 339, 504, 518, 570
Blood glucose . . . 37
Blood lactate . . . S197
Blood pressure . . . 11, 246, 260, 456
Blood volume . . . 137
Body composition . . . 45, 207, 546, 575
Body density . . . 610
Body weight . . . 324
Bona fide occupational qualification . . . 179
Borderline hypertension . . . 246
Borderline hypertensive rat . . . 11
Boys . . . 389

Caffeine . . . 100
Calcium channels . . . S121
Carbohydrate feeding . . . 37, 621
Carbohydrate ingestion . . . 100
Carbohydrate-loading . . . 100
Carbohydrate metabolism . . . 218
Cardiac muscle . . . S121
Cardiac output . . . 239, 430
Carpal extensors . . . 518
Catecholamines . . . 218
Cell culture . . . S121
Choline acetyltransferase . . . 497
Chronological age . . . 179
Circuit weight training . . . 246
Citrate synthase . . . 368
Cognitive behavior therapy . . . S106
Compulsory retirement . . . 168
Conductance . . . 28
Conscious-instrumented dog . . . 443
Contact force . . . 266
CO_2 re-breathing . . . 239
Core temperature . . . 28
Coronary blood flow . . . 382, 443
Coronary heart disease . . . 159, 187
Coronary resistance . . . 382
Coronary risk factors . . . 187
Cortisol . . . 224
Cortisol lactic acid . . . 234
Co-secretion . . . 347
Criterion tasks . . . 179
Cross-country skiing . . . 324
Current developments . . . S95
Curve fitting . . . 480
Cycle . . . 545
Cycle ergometer treadmill . . . 557
Cycle ergometry . . . 51, 239, 480

Delayed-onset muscle soreness . . . 310
Developmentally regulated gene expression . . . S134
Diabetes . . . 497
Dietary protein requirement . . . S179
Diet-induced thermogenesis . . . 575
Dieting . . . 91
Dimensional analysis . . . 324
Discriminant function analysis . . . 71
Distance running . . . 213
Dog . . . 382
Dorsiflexion . . . 474
Downhill running . . . 310
Drop jumping . . . 332, 339
Dropping height . . . 339
Dynamic exercise . . . 17

Early follicular phase . . . 106
Eating attitudes test . . . 213
Eating disorders inventory . . . 213
Eating problems . . . 41
Eccentric exercise . . . 310
Echocardiography . . . 393, 423, 430, 557
Effort . . . 354
Ejection fraction . . . 430
Electrogoniometry . . . 303
Electromechanical delay . . . 570

Electromyography 310, 332, 518, 570
Elite S98
Embryonic muscle S142
Embryonic spinal cord S130
End-diastolic volume 430
Endocrine 229
Endorphins 83, 91, 451
β-Endorphin 83, 87, 229, 621
End-systolic volume 430
Endurance 33
Endurance capability 597
Endurance conditioning 423
Endurance time 480
Endurance training 375, 546
Energy 363, S157
Energy cost 324
Energy expenditure 511
Energy metabolism 368, 410
Energy output 546
Environmental factors S134
Epicondylalgia lateralis humeri 518
Epinephrine 91, 621
Equal Employment Opportunity Commission . . . 179
Equal opportunity legislation 168
Equilibrium of moments 518
Essential fat 179
Estradiol 106
Euler angles 285
Eversion 275
Exercise 1, 11, 21, 33, 66, 83, 91, 100, 124
179, 218, 229, 234, 363, 430, 451, 456, 497, 511

CONTENTS OF VOLUME 19

Volume 19, No. 1, 1987

Original Investigations

Effect of dual β-blockade and calcium antagonism on endurance performance
Neil F. Gordon, Johan P. van Rensburg, Danie P. van den Heever, N. Byron Kalliatakis, and Dirk P. Myburgh . . 1

Endurance training and human α_2-adrenergic receptors on platelets
Warren Lockette, Robert McCurdy, Stuart Smith, and Oscar Carretero 7

Cardiovascular responses to exercise and stress in the borderline hypertensive rat
Jonathan M. Squire, Michael M. Myers, and Robert Fried 11

Effect of exercise on recovery blood pressure in normotensive and hypertensive subjects
Farla L. Kaufman, Richard L. Hughson, and John P. Scharnan 17

Exercise training-induced hypervolemia in the horse
Kenneth H. McKeever, William A. Schurg, Sally H. Jarrett, and Victor A. Convertino 21

Thermoregulatory responses to skin wetting during prolonged treadmill running
David R. Bassett, Jr., Francis J. Nagle, Swapan Mookerjee, Kevin C. Darr, Alexander V. Ng, Stephen G. Voss, and Jerome P. Napp 28

Effect of pre-exercise carbohydrate feedings on endurance cycling performance
M. Hargreaves, D. L. Costill, W. J. Fink, D. S. King, and R. A. Fielding 33

Influence of selected carbohydrate drinks on cycling performance and glycogen use
M. G. Flynn, D. L. Costill, J. A. Hawley, W. J. Fink, P. D. Neufer, R. A. Fielding, and M. D. Sleeper 37

The relation of eating problems and amenorrhea in ballet dancers
J. Brooks-Gunn, Michelle P. Warren, and Linda H. Hamilton 41

The ultraendurance triathlete: a physiological profile
Mary L. O'Toole, W. Douglas B. Hiller, Lon O. Crosby, and Pamela S. Douglas 45

Physiological responses of triathletes to maximal swimming, cycling, and running
Wendy M. Kohrt, Don W. Morgan, Bradford Bates, and James S. Skinner 51

Strength and anaerobic responses of elite young female sprint and distance runners
William G. Thorland, Glen O. Johnson, Craig J. Cisar, Terry J. Housh, and Gerald D. Tharp 56

Aerobic and anaerobic power of Canadian wheelchair track athletes
Kenneth D. Coutts and Janet L. Stogryn 62

Effects of leg press training on cycling, leg press, and running peak cardiorespiratory measures
Albert E. Pels, III, Michael L. Pollock, Thomas E. Dohmeier, Kathy A. Lemberger, and Beverly F. Oehrlein 66

Predicting plantar fasciitis in runners
Barbara L. Warren and C. Jessie Jones 71

Letters to the Editor-in-Chief

Letter to the Editor-in-Chief
Brad Bjorkman 74

Responses
Anthony D. D'Urzo 74

Volume 19, No. 2, 1987

Editorial

Policy in regard to advertising
E. R. Buskirk 77

Original Investigations

Serum β-endorphin levels during a graded exercise test to exhaustion
Allan H. Goldfarb, Bradley D. Hatfield, Gary A. Sforzo, and Michael G. Flynn 78

Plasma β-endorphin responses to one-hour bicycling and running at 60% $\dot{V}O_{2max}$
Mark E. Langenfeld, Lori S. Hart, and Pai C. Kao 83

Increased plasma β-endorphin immunoreactivity in scuba divers after submersion
Michael L. Adams, Norris W. Eastman, Richard P. Tobin, Dale L. Morris, and William L. Dewey 87

Energy conservation and exercise dependence: a sympathetic arousal hypothesis
J. Kevin Thompson and Paul Blanton 91

A high carbohydrate diet negates the metabolic effects of caffeine during exercise
Jane Weir, Timothy D. Noakes, Kathryn Myburgh, and Brett Adams 100

Menstrual cycle and exercise effects on protein catabolism
Linda S. Lamont, Peter W. R. Lemon, and Brent C. Bruot 106

Exercise performance and ventilatory response in the menstrual cycle
Mary L. Dombovy, H. William Bonekat, Tracy J. Williams, and Bruce A. Staats 111

Progesterone-induced changes in exercise performance and ventilatory response
H. William Bonekat, Mary L. Dombovy, and Bruce A. Staats 118

Thermoregulatory and metabolic responses to jogging prior to and during pregnancy
James F. Clapp, III, Mary Wesley, and Robert H. Sleamaker 124

Heat acclimatization during summer running in the northeastern United States
Lawrence E. Armstrong, Roger W. Hubbard, Jane P. DeLuca, and Elaine L. Christensen 131

Fluid shifts with successive running and bicycling performance
Christine L. Wells, Joel R. Stern, Wendy M. Kohrt, and Kathryn D. Campbell 137

A comparison of ankle taping methods
Malcolm H. Pope, Per Renstrom, Dennis Donnermeyer, and Susan Morgenstern 143

Running-related injury prevention through barefoot adaptations
Steven E. Robbins and Adel M. Hanna 148

Symposium

Introduction to the symposium: age as a criterion for work performance—chronologic vs physiologic age
Arthur S. Leon 157

Age and other predictors of coronary heart disease
Arthur S. Leon 159

Human rights and the older worker: changes in work capacity with age
Roy J. Shephard 168

Functional vs chronologic age
Brian J. Sharkey 174

Job performance testing: an alternative to age discrimination
Paul O. Davis and Charles O. Dotson 179

Letter to the Editor-in-Chief

Letter to the Editor-in-Chief
Thomas J. Limbird 186

Response
William T. Stauber and J. Gregory Bennett 186

Volume 19, No. 3, 1987

Original Investigations

Heart disease in marathon runners: a review
Timothy D. Noakes 187

Body composition in paraplegic male athletes
Ronald Bulbulian, Robert E. Johnson, Joseph J. Gruber, and Barbara Darabos 195

Training-induced hypervolemia: lack of an effect on oxygen utilization during exercise
Howard J. Green, Laurie L. Jones, Richard L. Hughson, Doug C. Painter, and Brian W. Farrance 202

Athletic amenorrhea: lack of association with body fat
Charlotte F. Sanborn, Bruce H. Albrecht, and Wiltz W. Wagner, Jr. 207

Is running an analog of anorexia?: a survey of the incidence of eating disorders in female distance runners
Lindsay M. Weight and Timothy D. Noakes 213

Metabolic and hormonal responses to lipid and carbohydrate diets during exercise in man
Pascale Satabin, Pierre Portero, Gilles Defer, Jacques Bricout, and Charles-Yannick Guezennec 218

Influence of short-term cycling on salivary cortisol levels
Patrick J. O'Connor and Donald L. Corrigan 224

Plasma β-endorphin immunoreactivity during graded cycle ergometry
Robert H. Donevan and George M. Andrew 229

Reproductive hormone responses to resistance exercise
David C. Cumming, Stephen R. Wall, Meredith A. Galbraith, and Angelo N. Belcastro 234

Cardiovascular responses to rowing
Richard A. Rosiello, Donald A. Mahler, and Joseph L. Ward 239

Physiological response to circuit weight training in borderline hypertensive subjects
Kathryn A. Harris and Robert G. Holly 246

Estimation of $\dot{V}O_{2max}$ from a one-mile track walk, gender, age, and body weight
Greg M. Kline, John P. Porcari, Robert Hintermeister, Patty S. Freedson, Ann Ward, Robert F. McCarron, Jessica Ross, and James M. Rippe 253

The effect of hand-held weights on the physiological responses to walking exercise
James E. Graves, Michael L. Pollock, Scott J. Montain, Andrew S. Jackson, and Joanne M. O'Keefe 260

Electromyographic activity in sprinting at speeds ranging from sub-maximal to supra-maximal
Antii Mero and Paavo V. Komi 266

Kinematic analysis of the talocalcaneal/talocrural during running support
Jack R. Engsberg and James G. Andrews 275

Analysis of foot motion during running using a joint co-ordinate system
Robert W. Soutas-Little, Glenn C. Beavis, Mary C. Verstraete, and Trena L. Markus 285

The influence of lateral heel flare of running shoes on pronation and impact forces
Benno M. Nigg and M. Morlock 294

A biomechanical analysis of two functional knee braces
Kathleen M. Knutzen, Barry T. Bates, Philip Schot, and Joseph Hamill 303

An explanation of the upward drift in oxygen uptake during prolonged sub-maximal downhill running
Randall W. Dick and Peter R. Cavanagh 310

Testing of isokinetic muscle strength in the ankle
Birgitta Öberg, Thomas Bergman, and Hans Tropp 318

Volume 19, No. 4, 1987

Editorial

The underserved areas
E. R. Buskirk 323

Original Investigations

The influence of body mass in cross-country skiing
Ulf Bergh 324

Drop jumping. I. The influence of jumping technique on the biomechanics of jumping
Maarten F. Bobbert, Peter A. Huijing, and Gerrit Jan van Ingen Schenau 332

Drop jumping. II. The influence of dropping height on the biomechanics of drop jumping
Maarten F. Bobbert, Peter A. Huijing, and Gerrit Jan van Ingen Schenau 339

Enkephalins, catecholamines, and psychological mood alterations: effects of prolonged exercise
Peter A. Farrell, Anthony B. Gustafson, William P. Morgan, and Candace B. Pert 347

Ratings of perceived exertion at the lactate threshold in trained and untrained men and women
John J. DeMello, Kirk J. Cureton, Robin E. Boineau, and Maya M. Singh 354

Metabolic responses during hydraulic resistance exercise
Douglas L. Ballor, M. Daniel Becque, and Victor L. Katch 363

Sprint training effects on muscle myoglobin, enzymes, fiber types, and blood lactate
Ira Jacobs, Mona Esbjörnsson, Christer Sylvén, Ingemar Holm, and Eva Jansson 368

Physical fitness and hemodynamic response of women to lower body negative pressure
Donna L. Hudson, Michael L. Smith, and Peter B. Raven 375

Effect of β_1-receptor blockade on coronary resistance in partially trained dogs
Isabella Y. S. Liang, H. Lowell Stone, and Patricia A. Gwirtz 382

The effects of resistance training on aerobic and anaerobic power of young boys
David Docherty, Howard A. Wenger, and Martin L. Collis 389

Post-exercise echocardiography in pre-pubertal boys
Thomas W. Rowland 393

Exhaustive running: inappropriate as a stimulus of muscle glycogen super-compensation
Per C. S. Blom, David L. Costill, and Nina K. Vøllestad 398

Arterial pulse wave velocity, Fourier pulsatility index, and blood lipid profiles
T. Moritani, S. F. Crouse, C. H. Shea, N. Davidson, and E. Nakamura 404

Review

Phosphorus nuclear magnetic resonance: a non-invasive technique for the study of muscle bioenergetics during exercise
Alexander A. Sapega, David P. Sokolow, Thomas J. Graham, and Britton Chance 410

Letter to the Editor-in-Chief

Letter to the Editor-in-Chief
Louise Walker 421

Response
Tom Lloyd 421

Information for Authors i

Policy Statement Regarding the Use of Human Subjects and Informed Consent v

Volume 19, No. 5, 1987

Original Investigations

Effects of physical conditioning on the heart size and wall thickness of college women
Bernard J. Rubal, A.-R. Al-Muhailani, and Joel Rosentswieg 423

Comparison of ventricular volumes in normal and post-myocardial infarction subjects
Walter R. Thompson, Jerrold Shapiro, Deon Lee Thompson, and Walter Bulawa 430

Effect of muscle tension on the cardiovascular responses to lower body negative pressure in man
Michael L. Smith, Donna L. Hudson, and Peter B. Raven 436

Myocardial flow and function after regional β-blockade in exercising dogs
Howard Mass and Patricia A. Gwirtz 443

Response of plasma endorphins to running exercises in male and female endurance athletes
Paavo Rahkila, Ensio Hakala, Katariina Salminen, and Timo Laatikainen 451

Influence of exercise and quiet rest on state anxiety and blood pressure
John S. Raglin and William P. Morgan 456

Plasma volume changes and cardiovascular responses associated with weight lifting
Ronald G. Knowlton, Ronald K. Hetzler, Leonard A. Kaminsky, and James J. Morrison 464

The effect of external pressure on intra-muscular blood flow at rest and after running
Ola Thorsson, Bengt Hemdal, Bo Lilja, and Nils Westlin 469

The effect of aerobic conditioning on venous pooling in the foot
W. Larry Kenney and C. Glenn Armstrong 474

Exercise endurance time as a function of percent maximal power production
Everett A. Harman, Howard G. Knuttgen, Peter N. Frykman, and John F. Patton 480

Effect of reduced training on muscular strength and endurance in competitive swimmers
P. Darrell Neufer, David L. Costill, Roger A. Fielding, Michael G. Flynn, and John P. Kirwan 486

Effect of different post-exercise sugar diets on the rate of muscle glycogen synthesis
Per C. S. Blom, Arne T. Høstmark, Odd Vaage, Kristin R. Kardel, and Sverre Mæhlum 491

Select cardiovascular and metabolic responses of diabetic rats to moderate exercise training
Julie A. Wegner, Donald D. Lund, J. Michael Overton, John G. Edwards, Robert P. Oda, and Charles M. Tipton . 497

Specific characteristics of speed skating: implications for summer training
Ruud W. de Boer, Gertjan J. C. Ettema, Bert G. M. Faessen, Hans Krekels, A. Peter Hollander, Gert de Groot, and Gerrit Jan van Ingen Schenau 504

The assessment of children's physical activity: a comparison of methods
Lisa M. Klesges and Robert C. Klesges 511

Provocation of epicondylalgia lateralis (tennis elbow) by power grip or pinching
Chris J. Snijders, Aloysius C. W. Volkers, Karel Mechelse, and Andry Vleeming 518

Letters to the Editor

Letter to the Editor-in-Chief
D. P. Thomas and G. F. Fregin 524

Response
Kenneth H. McKeever 524

Letter to the Editor-in-Chief
Ronald Bulbulian 525

Response
J. Brooks-Gunn, Michelle P. Warren, and Linda Hamilton 526

Editorial

Publication of position statements
E. R. Buskirk 528

ACSM Position Stand on The Prevention of Thermal Injuries During Distance Running 529

ACSM Position Stand on The Use of Anabolic-Androgenic Steroids in Sports 534

ACSM Position Stand on Blood Doping as an Ergogenic Aid 540
